Architecture Internship

Qualifications

Applicant must be pursuing a Bachelor of Architecture or equivalent and 0-5 years' experience in institutional, industrial, and commercial projects. Experience should include both design and production with proficiency in using both AutoCAD and REVIT software. A successful candidate should exhibit strong organizational, creative, and presentation skills. The ability to meet deadlines, communicate verbally and in writing, and work in a team environment is required.

Responsibilities

- Create plans and drawings which clearly outline the architectural design of a project.
- Prepare and modify architectural documents, elevations, sections, details, etc. as directed by others utilizing REVIT.
- Assist in project documentation from schematic design to construction documents.
- Prepare 2D and 3D presentation/design drawings.
- Collaborate with various teams in order to establish goals, schedules, and budgets.
- Develop solutions to technical and design problems following established standards.
- Actively participate in team meetings, charrettes, and architectural forums.

The intern must work within Spirit Architecture Group's philosophy of harnessing the integrity and spirit of the small-town handshake to deliver personalized client-focused solutions.

Please include a cover letter, resume, and a work sample or portfolio with your application.
